DETAILED ACTION

1. This is in response to the arguments filed on 02/05/2008.

The following is the status of claims:

Claims 1-25 remain pending for examination.

Response to Arguments

Applicant's arguments, filed 02/05/2008, with respect to the pending claims 1-25 have been fully considered and are persuasive, as a result, the amendment to the claims overcome the rejection. Therefore, the rejection of the last Office action has been withdrawn.

REASONS FOR ALLOWANCE

With respect to claims 1-25 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

With respect to the independent claim 1, the claimed features "a searching method for a Security Policy Database comprising building a set of peer-based Security Policy Databases composed of a plurality of peer-based Security Policy Databases; wherein the step of building a peer table further comprises the step of building data in the peer table according to a default peer, gateway; the data comprises the peer identification, the address, the type and the prefix; and the peer identification is 0, the address is 0, and the prefix is 0" in conjunction with other elements of the independent claims are not suggested, anticipated or found to be obvious over the prior art made of record.

The dependent claims, being definite, further limiting, and fully enabled by the specification are also allowed.

The closest prior art, Godwin et al., USPTNo. 6,505,192 relates to performance of system IPsec rule searching in a number of ways, the Ipsec rules be searched in a predictable manner so that Ipsec processing applied at a sending end can be reversed at a receiving end.

Yeager et al., USPubNo. 2003/0028585 relates to mechanisms for representing trust between peers, systems in decentralized networking environments including peer-to-peer networking environments but fail to teach the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
